

TELEPHONE CAMPAIGN 2023

Christ's College Boat Club is the largest sporting club at Christ's, and the maintenance of our fleet has been able to continue thanks to the generosity of alumni. Annual and monthly donations are especially important as they gives us a stable base to plan for the future.

"Being able to row for a fraction of the true cost of rowing, supported by alumni donations, has made the sport accessible for myself and many of my friends. Donations to CCBC allow the club to welcome a much larger group of students than would otherwise be possible and to help build a diverse, inclusive community." - W1 Stroke

Rowing gives students an essential opportunity to break away from academic pressures. Crews can join in as little or as much as they want, and we had 85 novices trying out rowing in October 2021. **Christ's Women I won blades in 2022, and were Head of the River in the Lent races in 2015.** In order to keep building upon the successes of CCBC, maintenance of our fleet is essential. A new eight and two new fours are needed, as these are currently over 25 years old.

We are aiming to raise over **£100,000** over the next **five** years to purchase replacement boats

30 alumni giving **£20** per month for **five** years will enable us to purchase a new eight

CCBC welcomes alumni to row as well as support—on 22 April, two alumni crews are rowing in Head of the Cam!
